

Vertical Rack Mount PDU Non-Filtered 5 Way With UK Plug

Part No: 9251L

[View Online](#) >

PDU's are ideally suited for data cabinet applications, horizontal and vertical mounting, custom built to suit your exact requirement. All PDU's are manufactured from anodised aluminium extrusion fitted with tough polycarbonate accessories.

All UK 13 Amp sockets have been purposefully designed with a bus bar linking system which reduces risk, by eliminating internal wiring and potentially loose connections. All power terminal connections on these units are a maintenance free screwless design.
